John Legend is a talent for sure, but this isn't a great album; in fairness, it struggles to be average. Technically nothing wrong with it, but it smacks of bandwagon. Some artists are able to pull off both the genre they gravitate towards and any other they decide to dip their toe. Sinatra was a master, Buble's Christmas was a joy.

The trading strategies of legends Jesse Livermore, Bernard Baruch, Gerald Loeb, and more provide ways to triumph in the market Today's bookshelves are so laden with Johnny-come-lately experts, eager to sell their knowledge to any and all, that it's sometimes hard for traders to know which way to turn or whom to trust. Lessons from the Greatest Stock Traders of All Time makes the choice simple, examining the careers of five traders--Jesse Livermore, Bernard Baruch, Gerald Loeb, Nicolas Darvas, and Bill O'Neil--who, more than any others over the past century, demonstrated tremendous success at conquering Wall Street. This technique-filled book presents numerous ways in which the timeless strategies of these investing icons can be used to tame today's high-speed, unforgiving marketplaces. Comparing and contrasting the successes--and occasional failures--of these five giants of finance, it reveals: What Jesse Livermore did to correctly call every market break between 1917 and 1940 How Bill O'Neil stuck to basics to create his famously effective CANSLIM system The strategies Nicolas Darvas used to become a self-made millionaire several times over

I love the structure of this book: Steve Burns points out huge differences between winners and losers in every area of the market. Each chapter takes up a pair of opposites, such as "New Traders try to prove they are right; Rich traders admit when they are wrong." Dozens of such pairs offer a psychological mirror to serious readers. -Alexander Elder www.elder.com Here is a work that puts the reader in the mind of a fledging trader who makes all the mistakes then learns from them. Told in an instructive and entertaining narrative, the author takes the reader through the trading concepts with a clarity and ease of understanding. A must read for beginning and intermediate level traders. -Dr. Chris Kacher, co-founder of www.SelfishInvesting.com and co-author of "How We Made 18,000% in the Stock Market" You have done a truly tremendous job with this book A breezy read with essential trading advice. I think this book could become a trading classic So many great rules are offered in this book, but I think my favorite might be Chapter 8's. It is SO true Just printing out the title of each chapter and putting it on your desk would greatly benefit every trader I know. Steve, you've done a great job -Darrin Donnelly, DarvasTrader.com." Steve Burns has done a superb job with his new book "New Trader, Rich Trader" This is a must read for all levels of traders. Golden nuggets include important concepts like "I always put capital preservation before capital appreciation." Steve tackles psychology, risk control, and what it takes to succeed in this business where so many fail. As Steve says "most new traders learn the hard way by losing money..." don't be one of them, do yourself a favor and buy this book, because not only is it a great investment, but the concepts in this book will save you plenty -Bennett McDowell, Founder, TradersCoach.com(r) Author: "A Trader's Money Management System: How to Ensure Profit and Avoid the Risk of Ruin" Steve Burnsdescribes three of the most critical aspects of trading with a "dialogue-style" book between a novice trader and an experienced successful trader. Natural Compounds in Cancer Therapy is a classic reference work for patients and medical professionals interested in use of nontoxic botanical compounds in the treatment of cancer. It offers a snapshot of the field circa 2001, and its insights are still pertinent today. Natural Compounds in Cancer Therapy is among the first books to discuss the use of natural products against cancer from a systems biology perspective.

Trading is generally far more difficult in practice than in theory. The reality is that no trade set up or individual trader or system can identify profitable trades in advance with complete certainty. In A Year of Trading, long-time trader Peter Brandt reveals the anxieties and uncertainties of trading in a diary of his 2009 trades. He explains his thought process as he searches for trading opportunities and executes them. Each trade includes charts, an analysis of the trade, and a play-by-play account of how the trade unfolds.
