A special gift to her Uncle John, Katie and her sisters are asked to help set the white table for dinner. As their mother explains the significance of each item placed on the table Katie comes to understand and appreciate the depth of sacrifice that her uncle, and each member of the Armed Forces and their families, may be called to give. It was just a little white table... but it felt as big as America when we helped Mama put each item on it and she told us why it was so important. "We use a Small Table, girls," she explained first, "to show one soldier's lonely battle against many. We cover it with a White Cloth to honor a soldier's pure heart when he answers his country's call to duty." "We place a Lemon Slice and Grains of Salt on a plate to show a captive soldier's bitter fate and the tears of

Following the 1833 Treaty of Chicago, the Potawatomi, once concentrated around southern Lake Michigan, increasingly dispersed into nine bands across four states, two countries, and a thousand miles. How is it, author Christopher Wetzel asks, that these scattered people, with different characteristics and traditions cultivated over two centuries, have reclaimed their common cultural heritage in recent years as the Potawatomi Nation? And why a "nation" not a band or a tribe—in an age when nations seem increasingly impermanent? *Gathering the Potawatomi Nation* explores the recent invigoration of Potawatomi nationhood, looks at how

marginalized communities adapt to social change, and reveals the critical role that culture plays in connecting the two. Wetzel's perspective on recent developments in the struggle for indigenous sovereignty goes far beyond current political, legal, and economic explanations. Focusing on the specific mechanisms through which the Potawatomi Nation has been reimagined, national brokers, he finds, are keys to the process, traveling between the bands, sharing information, and encouraging tribal members to work together as a nation. Language revitalization programs are critical because they promote the exchange of specific cultural knowledge, affirm the value of collective enterprise, and remind people of their place in a larger national community. At the annual

**Gathering of the Potawatomi Nation**, participants draw on this common cultural knowledge to integrate the multiple meanings of being Potawatomi. Fittingly, the Potawatomis themselves have the last word in this book: members respond directly to Wetzel's study, providing readers with a unique opportunity to witness the conversations that shape the ever-evolving Potawatomi Nation. Combining social and cultural history with firsthand observations, **Gathering of the Potawatomi Nation** advances both scholarly and popular dialogues about Native nationhood. Most Americans had no idea what Common Core was in 2013, according to polls. But it had been creeping into schools nationwide over the previous three years, and children were feeling its effects. They cried over math homework so mystifying their parents could not help them, even in elementary school. They read motley assortments of "informational text"

instead of classic literature. They dreaded the high-stakes tests, in unfamiliar formats, that were increasingly controlling their classrooms. How did this latest and most sweeping "reform" of American education come in mostly under the radar? Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers, and it led to a big tangle of history and politics, intrigue and arrogance. She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K-12 classes, and how the Obama administration pressured states to adopt them. Thus a federalized education scheme took root, despite legal prohibitions against federal involvement in curriculum.

Common Core and its testing regime were touted as "an absolute game-changer in public education," yet the evidence so far suggests that kids are actually learning less under it. Why, then, was such a costly and disruptive agenda imposed on the nation's schools? Who benefits? And how can citizens regain local self-governance in education, so their children's minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats? The Education Invasion offers answers and remedies.

Vietnam vet Caney the flashiest joke in the entire state. Twelve years later, the once-busy highway is dead and the sign is as worn as Caney, who hasn't ventured outside the diner since it opened. Then one blustery December day, a thirtyish Crow woman blows in with a three-legged dog in her arms and a long-buried secret on her mind. Hiring on as a carhop, Vena Takes Horse is soon shaking up business, the locals, and Caney's heart...as she teaches them all about generosity of spirit, love, and the possibility of promise-just like the sign says.

American soldiers are fighting overseas against the injustices brought on by Hitler. Back on the home front, the injustice of discrimination against African Americans plays out as much on Main Street as in the military. Enlisted black men are segregated from white soldiers and regularly relegated to service duties. At Fort Benning, Georgia, First Sergeant Walter Morris's men serve as guards at The Parachute School, while the white soldiers prepare to be paratroopers. Morris knows that for his men to be treated like soldiers, they have to train and act like them, but would the military elite and politicians recognize the potential of these men as well as their passion for serving their country? The 555th Parachute Infantry Battalion, in the words of Morris, "proved that the color of a man had nothing to do with his ability." From Courage Has No Color What did it take to be a paratrooper in World War II? Specialized training, extreme physical fitness, courage, and "until the 555th Parachute Infantry Battalion (the Triple Nickles) was formed" white skin. It is 1943. Americans are overseas fighting World War II to help keep the world safe from Adolf Hitler's tyranny, safe from injustice, safe from discrimination. Yet right here at home, people with white skin have rights that people with black skin do not. What is courage? What is strength? Perhaps it
