"Peace, woman. I swear, you have no sense of humor whatsoever. I'll accept your deal on one condition. I wait for him to continue but he doesn't say anything else. It's like pulling teeth. "What's the condition?" "You have to go on a date with me." "You realize that you're blackmailing me into a date, don't you? That's desperate, even for you," I say in disgust. "Don't you have any shame?" "Yes, I realize that. And no, I do not. The Greeks wouldn't have won the Trojan war if they had felt too ashamed to hide in a wooden horse," he quotes cheerfully. "So you're comparing going on a date with me to winning a war?" "Hm...Yeah, I guess I am," he answers, completely unfazed. "Take it or leave it, it's up to you." I take a deep breath and try to think about this rationally. One date in return for a chance at winning the Championship. xxxxxxBlue Smith has leukemia. Having already undergone several cycles of chemotherapy, she isn't sure how much time she has left. All she knows is that she'll do anything to live. Just when she's lost all hope she is transported to Vitalis, a mysterious planet that may hold the cure. But to obtain that cure, she and her team have to win the Salvage Championship by completing a set of perilous Tasks. Tasks that test their strength and acumen. When Blue finds herself allied with an innocent ten-year-old, a gorgeous but abrasive blonde, an annoyingly arrogant cynic, and a handsome jock who is way too laid-back, she wonders if her team can even pass the qualifying round.As she struggles to keep her team from being eliminated, she starts to notice some strange things on Vitalis. It's sunny all the time and the people are a bit...off. Although she is more than happy to ignore the weirdness of the planet, Jack (her teammate) won't let her. He insists the Vitalians are hiding something from them. Having no other choice, Blue reluctantly joins Jack in his quest to uncover Vitalis' secrets. And while fighting for her life, she starts to fall for the one person she thought she'd never trust.

The information in this book all boils down to the key elements of meeting and attracting men, the courtship process, and setting yourself up for a successful long-term relationship with a man. Psychologists, social scientists, writers, thinkers, etc. tend to focus on the "later stages" of love when people have found each other or are already married. Maybe it's because they're in a lab all day, but I don't think they understand that relationships don't just happen and come together in a test tube. There's a whole universe of stuff that happens before two people arrive at a committed relationship, but these earlier stages and processes don't get much attention. For lots of women, just finding a great guy can be tough enough. First she has to find him and meet him. Then she has to attract him and be attracted to him. Then she has to get to know him and make sure he isn't some player or whatever. Then she has to figure out how to keep the chemistry alive and stay connected and intimate. (This last one can be like pulling teeth with some men!). It's an incredible process that can be overwhelming for lots of women. So why does it have to be so hard with men? Why do ALL of these things have to fall into place with men before any of the deeper feelings and longer term commitments come into play?... Well, that's what we're here to talk about.

In the classroom, knowledge is widely distributed among the students and teacher, but is difficult to share across linguistic and cultural barriers. Seeking paths across these barriers, Lynne Wiltse meticulously explores the question: What is the discourse frame in which students and teachers work? Situated in a grade nine multilingual classroom, her work provides a rich description of the research process in the classroom. At the same time, she draws the reader sequentially through the analysis, revealing inferences in increasing levels of abstraction within a framework of “ communities of practice. ” She highlights issues related to second language acquisition, students ’ immigration experiences, teaching, and learning, and points the way toward multi-vocal dialogues and practices that can forge a path across cultural and linguistic divides.

The audio CD contains all of the dialogues in the book.
