Ortho PT Questions is a study guide for physical therapists to pass the Orthopedic Certified Specialty examination. This book contains over 200 multiple-choice questions with explanations of the correct

answer choices and links to articles that support the question. Pass the test without breaking the bank, and practice OCS-like questions before taking the test.

This book includes a foreword by Nicola Maffulli, Professor of Trauma and Orthopaedic Surgery, Keele University School of Medicine, and Consultant Trauma and Orthopaedic Surgeon, North Staffordshire Royal Infirmary and City General Hospital, Staffordshire. The new structure of the Fellowship of the Royal College of Surgeons (FRCS) examination requires candidates to complete two papers in extended matching question (EMQ) and multiple choice question (MCQ) format. This invaluable revision aid contains a 'bank' of over 350 questions in self-test format. Comprehensive answers are detailed at the end of each section. With a focus on high-yield topics, students can choose use the resource in the early stages as an overview of the subjects, then later as an ideal exam revision aid. There's nothing else like it! Specialist registrars preparing for the FRCS (Trauma and Orthopaedics) examination will find this an essential revision aid. It is also useful for Basic Surgical Trainees preparing for the Membership of the Royal College of Surgeons (MRCS) examination.

This book examines not only the assessment of student learning but the assessment of institutions, the programmes they offer, and the teaching they provide. It describes in detail the significant developments that have taken place over the last decade in the field, and clarifies the different meanings of the term assessment that are now in use.

Brings together what every trainee orthopaedic surgeon needs to know about approaching paediatric cases for examinations and clinical practice.

This book has been written specifically for candidates sitting the oral part of the FRCS (Tr & Orth) examination. It presents a selection of questions arising from common clinical scenarios along with detailed model answers. The emphasis is on current concepts, evidence-based medicine and major exam topics. Edited by the team behind the successful Candidate's Guide to the FRCS (Tr & Orth) Examination, the book is structured according to the four major sections of the examination; adult elective orthopaedics, trauma, children's/hands and upper limb and applied basic science. An introductory section gives general exam guidance and end section covers common diagrams that you may be asked to draw out. Each chapter is written by a recent (successful) examination candidate and the style of each reflects the author's experience and their opinions on the best tactics for first-time success. If you are facing the FRCS (Tr & Orth) you need this book.

The entire text and study questions with fully-searchable content. Area of Focus: General Orthopaedics. Designed to prepare orthopaedic residents for the Orthopaedic In Training Exam (OITE), and the American Board of Orthopaedic Surgery (ABOS) Board Certification examination, this book is presented in an easy-to-read outline format for quick review and ready access to important facts. Organized by specialty, each of the 122 chapters is loaded with color images, illustrations, tables, and charts to support the material and help you retain the information. Hundreds of multiple-choice test questions drawn from current orthopaedic literature with integrated images help you measure your learning and knowledge. Each question includes the preferred response with additional discussion and explanation of the topics. Use it to assess your knowledge and increase your retention of the core knowledge of orthopaedics.
