After a half-century of activism, John McConnell, the true founder of Earth Day, here relates his global promotion of peace,

thinking. Sometimes this information can be brutally honest or painfully real. The author is not trying to win any popularity contest. He tells it like it really is and doesn't care what anyone thinks! The Conscious Planet is what the government

is this tainted knowledge which is creating a society of pathetic drones, who like poordoomed sheep, are too busy just trying to survive to see that the wool is being pulled over their eyes while being led to slaughter! Because these corporate imperatives are

being paid for at the expense of the future of mankind! Before you patronize any product, be conscious about what it's doing to your health, to the earth, and how it will affect future generations. Skeptics have warned the author that this book

A POCKET MANUAL TO SAVE THE PLANET offers a series of specific

Royal Akhavan PhD
and practical proposals for dealing with the three most important issues that threaten to destroy our national and international societies to one extent or another: GLOBAL DEPRESSION: This possibility will be triggered if and when our government

Get Free Peace For Our Planet A New Approach By

defaults on its mountain of debts and essentially declares bankruptcy, which will be followed by a global depression. This is predicted by many of our best economists to happen sometime between roughly 2014 and 2016. GLOBAL WARMING: This

Get Free Peace For Our Planet A New Approach By

peril is presently melting our ice caps and mountain glaciers, slowly raising the level of our oceans until they potentially flood the low-lying areas of our global civilization; that is where about 50% of our global population lives within about 50 miles of our coast

Get Free Peace For Our Planet A New Approach By

lines. This is variously predicted by our best environmental scientists to happen by about the end of the 21st century with about 3-6 feet of water, so it requires action now to prevent it because it is already set in place to happen; and many scientists

Get Free Peace For Our Planet A New Approach By

Roy Akhtar PhD
say we have already passed the point where we can prevent it from happening. GLOBAL ARMAMENTS: We now spend, as a planet, approximately \$1.75 trillion a year on armaments and wars of one kind or another. If we continue to spend our scarce

Get Free Peace For Our Planet A New Approach By

resources on killing each other rather than preventing global depressions and defeating global warming, we will be hopelessly unable to create peace on our planet, and therefore we may allow the destruction of our global civilization at the hands of global

Get Free Peace For Our Planet A New Approach By

Roy A. Khavari Ph.D. This inability to live in peace rather than war already resulted in our killing 300 million human beings during the 20th century. That figure is about equal to the total population of the United States. GLOBAL PEACE. So we are a doomed global

Royal Akhavan Ph.D

civilization if we do not prevent a global depression, defeat global warming, and achieve global disarmament. We can ignore all of the warning signs of our coming devastation, but it is our futures that we are gambling away by our lethargy, as well as

Get Free Peace For Our Planet A New Approach By

the futures of our children and grandchildren. This is because, in order to prevent the invasion of these ocean waters, we need to become a completely coordinated global unit, that acts according to a single, global, heartbeat. This is a level of global co-operation that

Get Free Peace For Our Planet A New Approach By

Roya Akhavan Ph.D

we will never be able to achieve in the middle of the social chaos of a global depression or continuous military conflicts, so we could never defeat global warming before it invades our coastal civilizations with 3-6 feet of water. Therefore: If we don't

Get Free Peace For Our Planet A New Approach By

create a stable, global economy; if we don't achieve global disarmament; then we won't be able to defeat global warming and prevent the invasion of our coastal areas with 3-6 feet of water; so we can kiss our global civilization good-bye. But if we

Get Free Peace For Our Planet A New Approach By

start soon enough; if we lay down our arms together; if we work together with each other all over the world to prevent a global depression and to defeat global warming; then we will be able to live in global peace." They shall beat their swords into

goals are within our grasp, if we will take these necessary steps.
