Denied for almost six decades, had it happened today it could only have been called "ethnic cleansing". Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappé offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the forcible removal of the indigenous population.

The ethnic cleansing of Palestine is still ongoing today, according to Pappe, and it is an intentional policy by the state of Israel. The international community, unfortunately, is doing next to...

The book that is providing a storm of controversy, from 'Israel's bravest historian' (John Pilger) Renowned Israeli historian, Ilan Pappe's groundbreaking book revisits the formation of the State of Israel. Between 1947 and 1949, over 400 Palestinian villages were deliberately destroyed, civilians were massacred and around a million men, women, and children were expelled from their homes at gunpoint. Denied for almost six decades, had it happened today it could only have been called "ethnic cleansing". Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappe offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the forcible removal of the indigenous population. Indispensable for anyone interested in the current crisis in the Middle East.

Please note: This is a companion version & not the original book. Sample Book Insight: #1 I would like to thank my friends and family for their support and patience while I worked on this book. It was not dedicated to anyone, but it is written first and foremost for the Palestinian victims of the 1948 ethnic cleansing.

The myths—and reality—behind the state of Israel In this groundbreaking book, published on the fiftieth anniversary of the Occupation, the outspoken and radical Israeli historian Ilan Pappe examines the most contested ideas concerning the origins and identity of the contemporary state of Israel. The “ten myths” that Pappe explores—repeated endlessly in the media, enforced by the military, accepted without question

by the world's governments—reinforce the regional status quo. He explores the claim that Palestine was an empty land at the time of the Balfour Declaration, as well as the formation of Zionism and its role in the early decades of nation building. He asks whether the Palestinians voluntarily left their homeland in 1948, and whether June 1967 was a war of “no choice.” Turning to the myths surrounding the failures of the Camp David Accords and the official reasons for the attacks on Gaza, Pappe explains why the two-state solution is no longer viable.

For more than 60 years, hundreds of thousands of Palestinians have lived as Israeli citizens within the borders of the nation formed at the end of the 1948 conflict. Occupying a precarious middle ground between the Jewish citizens of Israel and the dispossessed Palestinians of the West Bank and the Gaza Strip, the Israeli Palestinians have developed an exceedingly complex relationship with the land they call home; however, in the innumerable discussions of the Israel-Palestine problem, their experiences are often overlooked and forgotten. In this book, historian Ilan Pappe examines how Israeli Palestinians have fared under Jewish rule and what their lives tell us about both Israel's attitude toward minorities and Palestinians' attitudes toward the Jewish state. Drawing upon significant archival and interview material, Pappe analyzes the Israeli state's policy towards its Palestinian citizens, finding discrimination in matters of housing, education, and civil rights. Rigorously researched yet highly readable, *The Forgotten Palestinians* brings a new and much-needed perspective to the Israel-Palestine debate.

At a time when a lasting peace between the Palestinians and the Israelis seems virtually unattainable, understanding the roots of their conflict is an essential step in restoring hope to the region. In *The Iron Cage*, Rashid Khalidi, one of the most respected historians and political observers of the Middle East, homes in on Palestinian politics and history. By drawing on a wealth of experience and scholarship, Khalidi provides a lucid context for the realities on the ground today, a context that has been, until now, notably lacking in our discourse. The story of the Palestinian search to establish a state begins in the mandate period immediately following the breakup of the Ottoman Empire, the era of British control, when fledgling Arab states were established by the colonial powers with assurances of eventual independence. Mandatory Palestine was a place of real promise, with unusually high literacy rates and a relatively advanced economy. But the British had already begun to construct an iron cage to hem in the Palestinians, and the Palestinian leadership made a series of errors that would eventually prove crippling to their dream of independence. The Palestinians' struggle intensified in the stretch before and after World War II, when colonial control of the region became increasingly unpopular, population shifts began with heavy Jewish immigration from Eastern Europe, and power began to devolve to

## Acces PDF The Ethnic Cleansing Of Palestine

the United States. In this crucial period, Palestinian leaders continued to run up against the walls of the ever-constricting iron cage. They proved unable to achieve their long-cherished goal of establishing an independent state—a critical failure that set a course for the decades that followed, right through the eras of the Palestinian Liberation Organization, the Palestinian Authority, and Hamas. Rashid Khalidi's engrossing narrative of this torturous history offers much-needed perspective for anyone concerned about peace in the Middle East.

Since its foundation in 1948, Israel has drawn on Zionism, the movement behind its creation, to provide a sense of self and political direction. In this groundbreaking new work, Ilan Pappé looks at the continued role of Zionist ideology. *The Idea of Israel* considers the way Zionism operates outside of the government and military in areas such as the country's education system, media, and cinema, and the uses that are made of the Holocaust in supporting the state's ideological structure. In particular, Pappé examines the way successive generations of historians have framed the 1948 conflict as a liberation campaign, creating a foundation myth that went unquestioned in Israeli society until the 1990s. Pappé himself was part of the post-Zionist movement that arose then. He was attacked and received death threats as he exposed the truth about how Palestinians have been treated and the gruesome structure that links the production of knowledge to the exercise of power. *The Idea of Israel* is a powerful and urgent intervention in the war of ideas concerning the past, and the future, of the Palestinian-Israeli conflict.

The sequel to the acclaimed *Gaza in Crisis* from world-famous political analyst Noam Chomsky and Middle East historian Ilan Pappé. Operation Protective Edge, Israel's 2014 assault on Gaza, left thousands of Palestinians dead and cleared the way for another Israeli land grab. The need to stand in solidarity with Palestinians has never been greater. Ilan Pappé and Noam Chomsky, two leading voices in the struggle to liberate Palestine, discuss the road ahead for Palestinians and how the international community can pressure Israel to end its human rights abuses against the people of Palestine. Praise for *Gaza in Crisis* by Noam Chomsky and Ilan Pappé "This sober and unflinching analysis should be read and reckoned with by anyone concerned with practicable change in the long-suffering region." —Publishers Weekly "Both authors perform fiercely accurate deconstructions of official rhetoric." —The Guardian Praise for Noam Chomsky . . . "Chomsky is a global phenomenon . . . perhaps the most widely read American voice on foreign policy on the planet." —The New York Times Book Review "One of the radical heroes of our age . . . a towering intellect . . . powerful, always provocative." —The Guardian . . . and Ilan Pappé "Ilan Pappé is Israel's bravest, most principled, most incisive historian." —John Pilger, journalist, writer, and filmmaker "Along with the late Edward Said, Ilan Pappé is the most eloquent

writer of Palestinian history." —New Statesman

"No family was more intimately associated with the failure of the Palestinians to achieve independence before the creation of Israel than the Husayni family. Ilan Pappé presents us with a most engaging political biography of that clan and the ways it exercised influence in Palestine from Ottoman times through the end of the British Mandate." Philip S. Khoury, Ford International Professor of History, Massachusetts Institute of Technology -- Book Jacket.
