## ~~What is the Definition of Gamification and What Does it Mean?~~

5 years ago □ Design Theories & Models, Learning Theories & Models, Media & Technology Theories □ 0.  
Summary: Gamification describes the process of applying game-related principles — particularly those relating to user experience and engagement — to non-game contexts such as education.

~~Gamification in Education — Learning Theories~~  
Techniques. Gamification techniques are intended to leverage people's natural desires for socializing, learning, mastery, competition, achievement, status, self-expression, altruism, or closure, or simply their response to the framing of a situation as game or play. Early gamification strategies use rewards for players who accomplish desired tasks or competition to engage players.
