Ever wonder why some people seem blessed with success? In fact, everyone is capable of winning in life—you just need to develop the right brain for it. In *The Winner's Brain*, Drs. Jeffrey Brown and Mark J. Fenske use cutting-edge neuroscience to identify the secrets of those who succeed no matter what—and demonstrate how little it has to do with IQ or upbringing. Through simple everyday practices, Brown and Fenske explain how to unlock the brain's hidden potential, using:

- Balance: Make emotions work in your favor
- Bounce: Create a failure-resistant brain
- Opportunity Radar: Spot hot prospects previously hidden by problems
- Focus Laser: Lock into what's important
- Effort Accelerator: Cultivate the drive to win

Along the way, meet dozens of interesting people who possess “win factors” (like the inventor of

thought that the brain you were born with was the brain you would die with, and that the brain cells you had at birth were the most you would ever possess. Your brain was thought to be “hardwired” to function in predetermined ways. It turns out that's not true. Your brain is not hardwired, it's "softwired" by experience. This book shows you how you can rewire parts of the brain to feel more positive about your life, remain calm during stressful times, and improve your social relationships. Written by a leader in the field of Brain-Based Therapy, it teaches you how to activate the parts of your brain that have been underactivated and calm down those areas that have been hyperactivated so that you feel positive about your life and remain calm during stressful times. You will also learn to improve your memory, boost your mood, have better relationships, and get a good night sleep. Reveals how cutting-edge developments in neuroscience, and evidence-based practices can be used to improve your everyday life

Other titles by Dr. Arden include: Brain-Based Therapy-Adult, Brain-Based Therapy-Child, Improving Your Memory For Dummies and Heal Your Anxiety Workbook Dr. Arden is a leader in integrating the new developments in neuroscience with psychotherapy and Director of Training in Mental Health for Kaiser Permanente for the Northern California Region Explaining exciting new developments in neuroscience and their applications to daily living, Rewire Your Brain will guide you through the process of changing your brain so you can change your life and be free of self-imposed limitations.
